Hey Mr. DJ

The Music: John plays the hits. Expect an expertly-blended playlist of danceable, lyrically-driven, popular music from the 60's to now. A pre-submitted list is accepted for guidance. John relies on room vibes and guest requests with a goal of entertaining the room as a whole.

The DJ: During the day John is a Program Director at Stingray Music in Fredericton. At Stingray he hosts a weekly syndicated radio show airing on 20 Country stations nationwide, and is part of the team that picks music for 28 top-performing Pop and Country stations across Canada. While not on-air he's been found DJing downtown nightclubs, weddings, yacht charters and sports games. You can choose to have him perform as an energetic MC, or have him guide your own.

Over 80 Venues Played:

Toronto

Maritimes

“ John is so kind and is super professional and you can tell he loves his job. He answered all our questions and made us feel at ease. John had the dance floor full and his music selection was fantastic. John is excellent in every aspect. We would highly recommend John and we definitely would use him again. -Erin & Marc, October 2024

“ **The Setup:** John uses uplighting equipment that compliments the room by sitting on the floor out of sight to uplight walls with an ambient colour during formalities before shining more fun patterns during the party. This system is photographer-friendly. No wires, no light stands, no tacky lasers. Floor cables are taped and speaker stands wear white scrims. While other DJs use more portable speakers, John relies on premium Yorkville & JBL pro sound equipment to deliver a full sound that does not lose character at dancing volume.
